Dok. Nr. FO_24_028

EVKs product and services portfolio contains industrial solutions from data acquisition to business decision. The proprietary sensor-based systems are used in inspection, analysis and the sorting of bulk material. Technologies applied by EVK like hyperspectral imaging e.g. chemical imaging, colour- and conductivity imaging are used in the fields of recycling, food processing, mining and the chemical industry.

The validity of the **qualityaustria** certificate will be maintained by annual surveillance audits and one renewal audit after three years.
